Sagamore Plumbing and Heating
75 Research Road
Hingham, MA 02043

To Whom It May Concern:

It is my sincere pleasure to recommend the professional services of Sagamore Plumbing and Heating. From start to finish, Sagamore's professional team offered top-notch service, extreme attention to detail and an overarching concern for total job quality.

This outstanding service level begins with Chief Executive Officer Joseph Harold and cascades down through his entire team, both in the field and in home office. There were no delays, no cost overruns and absolutely no issues with coordination between other trades, suppliers and our engineers. John Chaulker and his field team who completed the project are a motivated and confident group with a high degree of integrity.

Ermont highly recommends Sagamore for your construction and commercial HVAC and plumbing needs and looks forward to working with them again in the future.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jack Hudson", is written over the word "Sincerely,".
